ILLUSTRATIVE 10-EMPLOYER PORTFOLIO · PUBLIC EXAMPLE DATA

Healthcare agency portfolio intelligence baseline

A decision-ready view of current sponsor evidence, safely linked company records, historical CoS disclosure and the gaps that still need context.

Prepared for a healthcare recruitment agency
Scope: 10 representative UK healthcare employers

Evidence baseline

COVERAGE-LIMITED BASELINE

Current register evidence is complete; 4 company-identity limits remain visible.

All 10 employers are present with an A rating and the Skilled Worker route. 6 have a safe Companies House link. The remaining 4 public-sector sponsors sit outside that company-record coverage.

What the agency can act on

The report separates a quiet monitoring result from incomplete source coverage.

Confirmed now

All 10 exact name-and-town sponsor records are current, A-rated and licensed for the Skilled Worker route in the latest register.

Historical evidence attached

All 10 have exact-name Home Office CoS disclosure for 2021-24 and a published 2025 count.

Observed movement

0 changes affect this portfolio across 40 of 40 observed days, from 2026-08-31 to 2026-10-09.

Still needs context

4 public-sector sponsor records do not have a safe Companies House company link in this dataset. Missing coverage is not a negative finding.

OFFICIAL published source fact DERIVED reviewed link or interpretation UNKNOWN evidence gap, not an all-clear

Employer-by-employer evidence

Each card keeps current register status, legal identity, historical activity and the next action separate.

Evidence, not a verdict. This report does not predict sponsorship, hiring, suitability or a visa outcome.

Historical figures are linked by exact current sponsor name. The 2021-24 figures are CoS assignments, not unique workers or visa grants. The 2025 disclosure reports CoS recorded as used and publishes only employer-route counts of five or more. An absent count is unknown, not zero.
